

## Manifold cabinets

Cabinets are used for water and heating manifolds, as well as underfloor heating mixing units. These cabinets are designed to be mounted on a wall surface and come in 3 different sizes.

### Design:

- The back wall is equipped with rails and bolts for mounting the manifold.
- Side walls with holes for the supply and return pipe of heating medium.
- Feet used for mounting cabinets to the floor.
- Screws for fixing the manifold.
- Removable front door.
- Cabinet doors with a lock and key (standard).

**Material:** Hot-dip galvanized steel sheet 0.8mm thick, powder coated in white.
