

Extruded Polystyrene Insulation Transition Board

Extruded Polystyrene, referred to as XPS, is a closed cell insulation product commonly used in re-modelling and new construction applications.

Product Code	Product Description
TIOXPS0001	XPS transition board 1200 x 600 x 20mm

Model No		TIOXPS0001-XPS400
Product Description		XPS Transition Board with 10 Grooves
Board size	mm	1200x600x20mm
Material		XPS Insulation Board
Compressive Strength	kPa	400
Thermal conductivity	--	0.035
Aluminum Foil Thickness		N/M
Temperature range	°C	-20 ~ 70
pipe diameter	mm	16
Pipe centres	mm	60
Fire-retardant class		Europe B Class
