

1M Clip Rail with Taped Back

Universal rail for mounting underfloor and wall heating systems for use on a large surfaces. Designed for pipes with diameters of 16-18 or 25mm to simplify and shorten the installation time.

The rail is available in 1000 mm lengths, consisting of two 500mm sections. Elements can be easily combined with each other.

A sticky-back tape is also used to allow installers to simply stick the rail to a surface in order to fix it's position.

Product Code	Product Description	Dimensions
TIORAI0001	Clip rail with taped back	1000 x 44 x 21mm

Rails should be staggered to achieve pipe centres of 150 & 250mm.
