

Backer board washer with 40mm screw

Washers provide protection, distribute the load of the screw and prevent looseness when attached to a backer board.

Product Code	Product Description
TIOWAS0100	40mm screws - pack of 100

- M3.5 x 40mm coarse thread screws
- 36mm diameter steel tab washers
- Centre hold: 5mm
- Perforation size: 9mm
- Galvanised
- Countersunk

100 Pieces of each. Typically fixes 6 boards at 300mm centres (approx.).

Perforated washers designed for securely fixing tile backer boards.

The performance allows tile adhesive to penetrate and bond with the board surface, providing enhanced mechanical strength and reducing the risk of surface degradation over time.
